OUR STORY

WE ARE NETBRYD

We are a technology and security company with offices in Paramaribo, Suriname, and Georgetown Guyana. We specialize in physical-, cyber security, and smart communication solutions for corporations, hospitality, and medical institutions. We also provide automation solutions for the Hospitality Industry.

We have more than 12+ years of experience in information & technology, network installation & security, and communications. We design and offer consultancy for physical, network & cyber security, and communications. With our solutions, we guarantee efficient business operations.

We understand that every business is unique and requires a tailor-made solution. This is why we invest in getting to know your business. As dedicated experts, we will manage all your Security & Technology needs.

OUR VISION

To be the most innovating, customer and result driven information & technology company, by delivering quality products and services and by constantly working towards the ultimate customer satisfaction

OUR MISSION

As a services provider in the information and technology industry, we deliver dedicated and reliable services and support. We advise our clients with a highly motivated and trained team of professionals and add value to their services, so they can serve every customer to the highest standard.

OUR CULTURE

WE ARE COMPETITIVE

As a provider of network and security solutions, we are ambitious in our search to find ways to better serve our customers. In the process, we never forget that they are the real judge of our performance.

WE ARE COMMITTED

Our solution-driven approach helps us to establish long-lasting relationships with our clients to support them every step of the way. We are an understanding and strong partner dedicated to our customers' success.

WE ARE COMPETENT

The work we have done over the years enables us to approach new ideas with acquired wisdom.
